Summary

BCA graduate with hands-on experience in React.js, Node.js, Express.js, MongoDB, and TypeScript. Built AI-powered web applications including an Interview Simulator and Resume Analyzer. Looking for an entry-level Software Engineer or Full-Stack Developer role.

Skills

Programming Languages: C, Java, Python

Web Technologies: HTML, CSS, JavaScript

Frameworks & Libraries: React.js, Node.js, Express.js, Tailwind CSS, TypeScript

Databases: MySQL, MongoDB

Tools: Git, GitHub, VS Code, Postman

Experience

Web Development Intern

Sep 2025 – Feb 2026

iStudio

HTML, CSS, JavaScript, React.js

- Designed and developed responsive, user-friendly web applications using HTML, CSS, JavaScript, and React.js while following modern web development practices.
- Built reusable UI components and implemented responsive layouts for desktop and mobile devices.
- Integrated RESTful APIs to fetch and display dynamic data, managed application state using React Hooks, and improved overall user experience.
- Collaborated with mentors and team members to debug, optimize, and improve application performance.
- Followed Git and GitHub workflows for version control and project collaboration.

Projects

Interview Simulator

[Live Demo](#)

- **Built an interview simulator application using React.js.** Displayed predefined interview questions based on selected domain.
- **Implemented REST APIs using Express.js.** Allowed users to submit answers and receive structured feedback, Managed application state and user flow using React hooks.
- Created frontend components using TSX. (TypeScript + React) Used Radix UI components to create accessible and reusable UI elements.

AI Image Generator

- Developed a user-friendly interface using React.js for AI-based image generation. Integrated API integration to fetch AI generated result in real time.
- Managed application state using React hooks for smooth user interaction.
- Handled loading states and error scenarios for better user experience.

AI-Resume-Analyzer

- Designed a full-stack AI-powered Resume Analyzer using the MERN stack and TypeScript with secure JWT authentication, user login/register system, and protected APIs.
- Integrated Google Gemini API to perform ATS score analysis, skill matching, and AI-driven strength weakness detection from uploaded resumes.
- Applied PDF and text resume upload and processing for AI-based resume analysis and ATS score generation.

Certifications

- **Web Development Internship Certificate – iStudio :** Completed multiple hands-on web development projects involving responsive design, React.js, API integration, and version control using Git and GitHub.
- **Data Science Analytics Certification– Imarticus Learning :** Data Cleaning, EDA, Tableau, Project Presentation.
- **Java Programming Certification-:** MindLuster.com.

Education

Tilak Maharashtra Vidyapeeth (BCA)

IBSAR college, Navi Mumbai

Graduated: 2026

CGPA: 8.1 / 10
